A PLAYCORE Company

OUR COMMITMENT TO YOU

When working with Playcraft Systems, we offer peace-of-mind turnkey solutions for your next playground project. Our knowledgeable consultants will work alongside your team every step of the way to meet or exceed all of your project expectations. From the initial budgeting phase all the way to the grand opening and beyond, Playcraft is there to assist you in making your playground project a reality.

A child in a wheelchair is seen from behind, with their arms raised in a gesture of joy or triumph. They are positioned on a rocky outcrop overlooking a playground. In the background, there is a large, green-roofed play structure with various equipment. The sky is filled with soft, orange and yellow clouds, suggesting a sunset or sunrise. The overall mood is one of hope and achievement.

LET'S
IN
PLAY

Over 30 years ago we set out to make the best commercial playgrounds the world had ever seen. To do that, we knew we would have to raise the bar on the level of craftsmanship. Our hand finishing, thicker coatings, attention to detail & installation excellence mean communities don't have to worry about durability & can focus on children developing life skills on the playground. Play is everything to a child. Creating the best playgrounds for them is everything to Playcraft.

THE IMPORTANCE OF PLAY

PLAY IS CRUCIAL IN A CHILD'S LIFE, IT:

- ▣ Serves as a physical challenge.
- ▣ Develops cognitive skills.
- ▣ Offers a way to make new friends.
- ▣ Expands the imagination.

A PLAYGROUND CAN SERVE A LARGER PURPOSE. A WELL-DEVELOPED PLAYGROUND:

- ▣ Helps bring communities together.
- ▣ Provides a safe location for families to gather.
- ▣ Is a place to interact and make new bonds.
- ▣ Serves as a premier destination within that area for locals and visitors.

CRAFTSMANSHIP IS THE
CORNERSTONE OF
OUR COMPANY, BUILT ON A FOUNDATION OF:

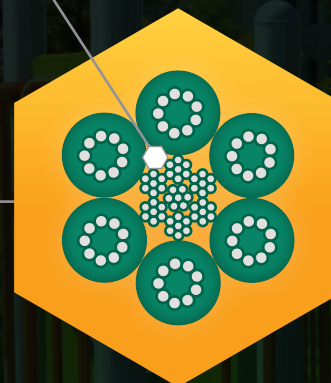

- ▣ Sustainable materials.
- ▣ Innovative design.
- ▣ State-of-the-art manufacturing techniques.
- ▣ An unmatched playscape experience.

CONNECTING WITH **NET EFFECTS**

Looking for playground equipment that challenges and inspires children? Net Effects can be used freestanding or as part of a play system. They encourage active movement and creativity while building upper body strength and core muscles. Children can also socialize while navigating the ropes together. Upgrade your playground with our Net Effects PLAY-CORD and watch it become the favorite local destination.

20mm ROPE
STEEL CORE

Breaking Strength
14,500 lbf.

20mm ROPE
NYLON CORE

Breaking Strength
18,000 lbf.

- Six (6) individually polyester wrapped steel strands surround a nylon or steel core.
- Using proprietary technology, polyester cable coatings are infused with UV protectants and flame-retardant solutions in the extrusion process.
- See our online guide for a variety of color choices:

CONNECTIONS FOR NET EFFECTS

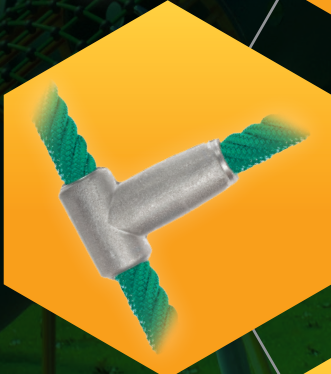

- Individually cast from high density aluminum.
- 120-ton hydraulic press used to close.
- Vandal resistant.

An exciting innovation we've integrated into our designs is connecting Net Effects 3D Nets to our modular structures in unique and engaging ways. For example, you can connect our Pyramids with our specially designed Net Bridge. Or, use our Crawl-Netix Tube, which links our classic post and collar play systems to our exclusive Net Effects Towers offering a fun and challenging way for children to navigate new play experiences.

MAXI PYRAMID

A2NE-1021

Height: 14'10" (4.5m)

Size: 25'6" x 25'6" (7.8m x 7.8m)

Use Zone: 37'6" x 37'6" (11.4m x 11.4m)

Fall Height: 6' (1.8m)

REGULAR ASTRO

A2NE-802

Height: 14'3" (4.4m)

Size: 13'10" x 13'10" (4.2m x 4.2m)

Use Zone: 26' x 26' (7.9m x 7.9m)

Fall Height: 6' (1.8m)

LOOKING FOR A WAY TO MAKE YOUR PLAYGROUND STAND OUT?

Look no further than Net Effects connected structures and freestanding 3D nets! Whether they're climbing across our Net Bridge from a classic structure to a Pyramid Net or hanging out on any of our other Net Effects structures, they'll be engaged and entertained for hours.

ENDLESS POSSIBILITIES AVAILABLE!

KEY

A Net Effects exclusive structure designed for multiple climbing experiences.

An Inclusive structure designed to include everyone!

An NFuse structure designed to be modular to multiple components.

A Round-5 structure designed to be extra durable.
