# SENSORY PLAY RAMPS & WALLS

Children grow and learn about complex tasks, gross motor skills, social interaction, and language development through sensory play. Our new Sensory Play Series brings cognitive, dynamic, and playful learning outdoors. This attractive, sleek design provides a striking base to any new or existing playground. There are three options to bring sensory activities into the play space with the Sensory Play Wall, Sensory Play Ramp, and Sensory Play Platform. Each Sensory Play Series product offers a unique experience for all users.

Sensory Ramp

Sensory Wall

## COGNITIVE SERIES

The Cognitive Series encourages a child's ability to think, comprehend and imagine. It features the Alphabet & Maze, Clock, Mirror, and Pinball standard inserts, along with the Bubble, Hypno-Drive, Color Mix, Oracle, and Tic-Tac-Toe small inserts. These sensory play activities will promote learning and develop deductive reasoning through colors, letters, numbers, and patterns.

## DYNAMIC SERIES

The Dynamic Series builds manual dexterity, coordination, and provides auditory stimulation activities. It includes the Labyrinth, Gear, Hourglass, Mirror, Bell, Chimes, Bubble, 3-in-a-Row, and Rain Maker inserts. Children experience sounds, movement, and problem-solving play, which is sure to add the sound of fun and laughter to each playground.

## PLAYFUL SERIES

The Playful Series strikes a balance between engaging play styles through the combination of the Hourglass, Mosaic, Mirror, Pinball, 3-in-a-Row, Bell, Bubble, Hypno-Drive, and Oracle inserts. This series provides play through sound, pattern, number, or word. Everyone will find something to enjoy.
