

IMPORTANT NOTES: Read First

(A) Use liquid thread lock (such as Loctite®) with all threaded hardware. **Important:** Liquid thread lock (prior to curing) helps to eliminate the common problem of "thread seizure" in stainless steel hardware by serving as a lubricant during assembly.

(B) Do not pour concrete until the equipment is completely assembled, leveled and plumbed. Concrete must be allowed to cure completely before using the equipment (at least 72 hours).

(C) An appropriate energy absorbing safety surface is required under and around all playground equipment. Loose fill protective surfacing is shown only as an example for the purpose of this assembly instruction. Other surfacing material may vary in thickness and/or compression depths. See free publication - The Handbook for Public Playground Safety, Publication #325 at www.cpsc.gov for the surfacing appropriate for the fall height of the equipment or consult your surfacing supply representative.

Rainbow Twist Climber

Step 1

Footing Detail

Refer to Footing Layout and mark footing hole locations. Dig (6) Ø 12" footing holes. Refer to Footing Detail for depth and details.

IMPORTANT: For areas with soft soil conditions, larger footings may be required.

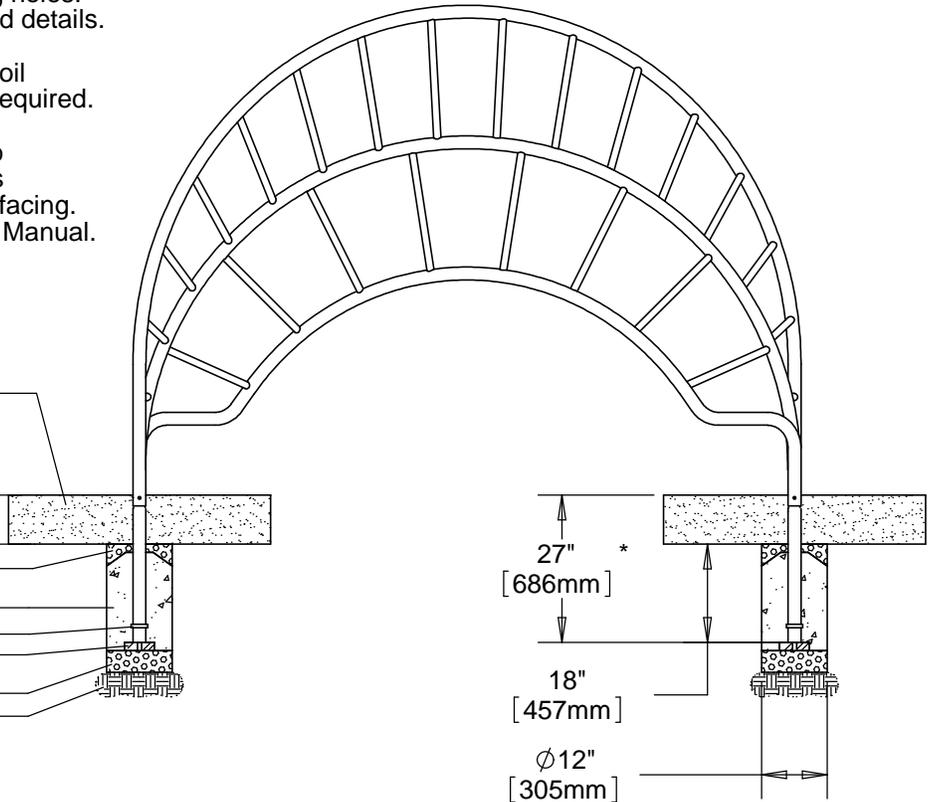

* Footing depth must be adjusted to compensate for the depth/thickness requirements of selected safety surfacing. See Section 06.1 of the Installation Manual.

LOOSE FILL SURFACING MATERIAL SHOWN:
9" compressed or 12" uncompressed depth.
Compressed depth shown. (See Note C)

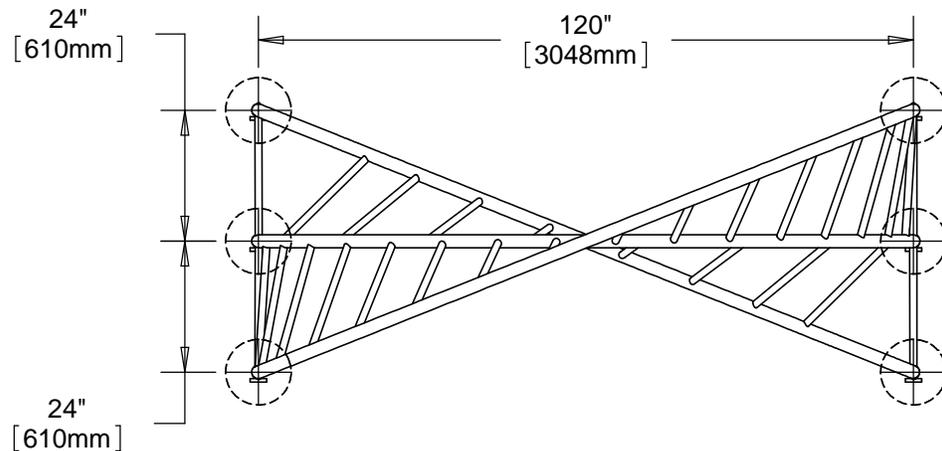

(Finish Grade)

(Top of Soil)

- Optional Filter Fabric over Pea Gravel (for drainage)
- Concrete Footing
- Footing Anchor
- Blocking, see Installers Manual
- 2b Stone, drain rock
- Undisturbed Soil

Top View - Footing Layout

Step 2

Attach Legs to Rainbow Twist Climber as shown in Figure 1.1 and place into footing holes. (See Notes A & B)

Step 3

Fully tighten all fasteners according to the "TIGHTENING TORQUE FOR HARDWARE" section of the Installation Manual.

Step 4

Plumb and level entire component. Pour concrete into footing holes. Allow at least 72 hours to cure before using this equipment. (See Note B)

Step 5

Place required protective surfacing under and around Rainbow Twist Climber. (See Note C)

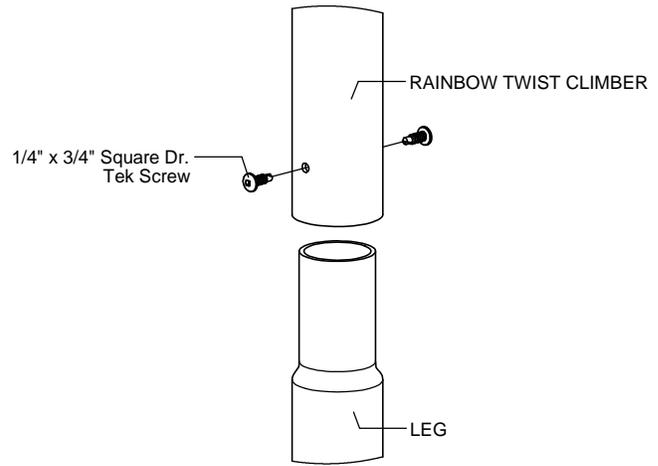

Figure 1.1

Parts List

Part #	DESCRIPTION	QTY
FS-2985	Rainbow Twist Climber	1
FS-2985-LEG	Rainbow Twist Climber Leg	6
9271032	Screw Tek 1/4" x 3/4" PH SQDR	12

Specifications

RAINBOW TWIST CLIMBER:

Shall be fabricated using 2.375" O.D. 11 gauge steel rails with welded 1.315" O.D. 12 gauge steel rungs. The Rainbow Twist Climber shall have a multi-stage baked-on powder coat finish.

RAINBOW TWIST CLIMBER LEG:

Shall be formed and fabricated using 2.375" O.D. 11 gauge steel tubing with welded 5/8" O.D. steel anchor. The Rainbow Twist Climber Leg shall have a multi-stage baked-on powder coat finish.

HARDWARE:

Shall be stainless steel, zinc/nickel plated or galvanized as required to resist rust and corrosion.

Maintenance

Periodically tighten all screws, bolts and nuts. A periodic inspection of all parts is necessary. If a part is broken or worn, replace immediately. For general maintenance please refer to our Playground Maintenance Manual.
