

IMPORTANT NOTES: Read First

(A) Use liquid thread lock (such as Loctite®) with all threaded hardware. **Important:** Liquid thread lock (prior to curing) helps to eliminate the common problem of "thread seizure" in stainless steel hardware by serving as a lubricant during assembly.

(B) Fillers must be installed where there is a space between 3-1/2" and 9" to prevent head entrapments.

FIGURE 1
Vertical Deck Filler

NOTE: 12" Vertical Deck Filler shown on R5 deck assembly. other configurations may vary slightly, but do not affect the assembly.

Step 1

Attach the corresponding Vertical Deck Filler to the decks as shown in Figure 2 and 3. (See Note A)

Figure 2

Step 2

Fully tighten all fasteners according to the "TIGHTENING TORQUE FOR HARDWARE" section of the Installation Manual.
