

IMPORTANT NOTES: Read First

(A) Use liquid thread lock (such as Loctite®) with all threaded hardware. **Important:** Liquid thread lock (prior to curing) helps to eliminate the common problem of "thread seizure" in stainless steel hardware by serving as a lubricant during assembly.

(B) Refer to Installation Manual for 09 Collars and 11 Socket Clamp assembly instructions.

(C) When installing the Free Form Post Topper, make sure that the lowest end of the post topper "Excluding Supports" is a minimum of 84" [2130mm] above the underlying play surface.
